FIRST SHIP FOR THE FEBRUARY SALES ABERDEEN LINE OF CLIPPERS.

For LONDON, Direct,
To sail positively October 29,
The new Aberdeen Clipper-built Ship,
STRATHDON,
A 110 years,
1,011 tons register,
JAMES ROSS, Commander.

This noble vessel was built expressly for the Australian trade, by Walter Hood and Company, and forms one of the justly-celebrated line of Aberdeen clippers owned by Messrs. George Thompson, Juniper, and Company, of London, of which

The Moroccan, Capt. Edward,
The Omar Pasha, Capt. Thomson,
And the Maid of Judah, Capt. Mitchell,
have already become favourably known at this port.
The Strathdon is now lying alongside the Warriston Railway Pier, having discharged the whole of her cargo without any sea damage.

She takes chief cabin passengers only, whose attention is respectfully called to the superior character of her saloon accommodations.

Carries an experienced surgeon.
Shippers of wool may rely on her being punctually despatched, in order to assure her arrival in London in ample time for the February sales, and are requested to arrange for their shipments as soon as possible with the undersigned.

The Magnificent Clipper Ship
CHAMPION OF THE SEAS,
2,300 Tons Register,
J. M. OUTRIDGE, Commander.

This ship having now discharged her inward cargo, will be placed on the berth for Liverpool, to sail positively 10th November, in order to suit the convenience of shippers for the February sales.

The Champion of the Seas is acknowledged by all to be one of the handomest clipper ships afloat, and to passengers returning to England offers advantages rarely to be met with. She is fitted up in the usual elegant style of the Black Ball and Eagle Line.

Saloon passengers are provided with all bedding, linen, and cabin requisites. The state-rooms are unusually large and lighted by side ports. A stewardess is appointed to attend upon lady passengers.

The ladies saloon is fitted up, with lounges, easy-chairs, piano, library, &c.

A crew will be placed on board.

Second-class passengers will find, on inspection the accommodation set apart for their occupation superior to any other ship on the berth. The ship provides all cabin furniture, table utensils, crockery-ware, &c., as well as steward's attendants.

Third class and steerage passengers have on board this ship the advantage of enclosed state-rooms, which are fitted up and ventilated with a special regard to their comfort.

A qualified surgeon on will accompany the ship. The last homeward passage of ship, under unfavourable circumstances, was accomplished from port to port in 85 days, and it is confidently anticipated she will, sailing in ballast trim, make a very rapid run home.

GENTLEMEN:—
HAVING commenced in EDEN as HORSE and CATTLE SALESMEN and General AUCTIONEERS, we are desirous of directing your particular attention to our Establishment located in Inlay and Mitchell Streets.

The Cattle and Stock Yards, Sheep Pens, and the Stabling, have been erected for the purpose of facilitating the business in all its branches. The long practical experience of our Mr. Gilbert, whose business transactions in the Colony have extended over a period of nearly Twenty Years (a great portion of which has been devoted entirely to the above pursuits), we think, in itself a guarantee of our knowledge and judgment of Cattle and Stock required for the trade. We, therefore, have no hesitation in stating that we will at all times be in a position to advise you of this Market, fluctuating as it naturally must during a migratory population, it will need our united energy and application to enable us to give you a faithful and correct report, which you may rest assured we will not fail doing. With these views we trust to obtain your business, relying on our own exertions in being able to realise a remunerative profit on all Stock consigned to us for Sale. In the interim,
